

Thank you Kathryn. I threw away a gem in the shape of a heart that i got from my coworker, God led me to my bedroom, I knew exactly what I wanted to throw away but I wasn't sure if I still have it. I started coughing as I searched and then found the object and threw it away. God bless you and God bless us all ❤️

The art of escape

Pisces hate conflicts. Their pacifist and tolerant nature pushes them to avoid any conflicts. They're just too nice with everyone to create a hostile atm sphere.

They don't run away from a conflict by changing path or direction. Instead, they prefer using evasive methods or loopholes, to their opponents' frustration. Pisces excel at careers in the arts, including theater, music, and cinema, and are often the best in their fields.

Strong intuition

Even though they rarely use it, Pisces have a very effective weapon during conflicts. During competitions, they can guess their rivals' intentions. They can then plan and act accordingly. Furthermore, their undeniable charm helps to convince people of their abilities.
