

# hamburger helper

as a european "hamburger helper" makes no sense to me. i mean the words itself. i've googled what it is countless times and i can never remember what it actually is. what do you mean "hamburger helper". what do you need help with. hamburger helper. i feel like i've stared at the sun for an hour.

just a reminder that just because he had abuse parents doesn't excuse the fact he tried to END THE WORLD TWICE.

### a dying art

when i was fed spicy scraps of chilimangolike vegetal treat of archaic reliable flavor i wasreminded pleasantly of how *some1 foolish, a actual buffoon* can still b themost mesmerizing 1 to watch: a gift that keep on giving: a taste acquird 4 somethin that s only available when mostly obscured

as soon as the wretchedbrite lite is shined on it it s uh v different but theimportant part s cultivatin the power of allowin imagination &fateitself 2 fill in the obscured spots, & the art of slowly inchin closer but leavin enough

space 2 b mystified: simultaneous &contradictory flavors complimentary n unworried by the issue of incompatability,

and itmust b called *a dying art* bc of the taste many has via bruteforce &mandatory subsistence acquired 4 (pedestrian,pathetic,tragic even, 2 pitiful 2 even think thru most days) what they r calling *the data* or *the facts* or even *objective* (they notevenknowing what that meanz & tooLazyto find out)

*the religious stuff* as this foolserandEra perceive it will kontinue 2B of no interest to 97% of people they r like 'yadda yadda yadda you never shut up about all that Empty Space' -- bc they only want ingredientslisted relationalcandy &thats the problem

im bursting with candy ihave so much *im just not that into it* bc the other stuff is 9 mil times more flavorful & why bother w cheap candy when i can firstofall singlehandedly convert it in2 true treasure & once fullystocked gladly binge on the other stuff so easy,so easy

i can work w very little & get off the ground w next 2 nothing but that doesnt maek it not dismal 2 b plagued with this pitiful ambience this

unapproachably sad delusion forever stallin out my treasuremine

### hell

its so stupid 2 refuse 2 see what u see with ur own eyes:  
hell

**akio type shit**

obvious than theappeal of never-bein-anywhere-near th@ liminal road  
afterall *it s not evil which fascinates it s the cycle of worsening*

thuswhen lookin for intheflesh xamples i consult my notes n attempt 2  
calculate *which 1 is evil? mayb both of them mayb neither? maybe  
the whole lot r evil -- that is okay: it is fascinating trash to sift if i have the  
taste for it--if its not tooembarassin  
evil s okay*

**jeeves poisoned chalice**

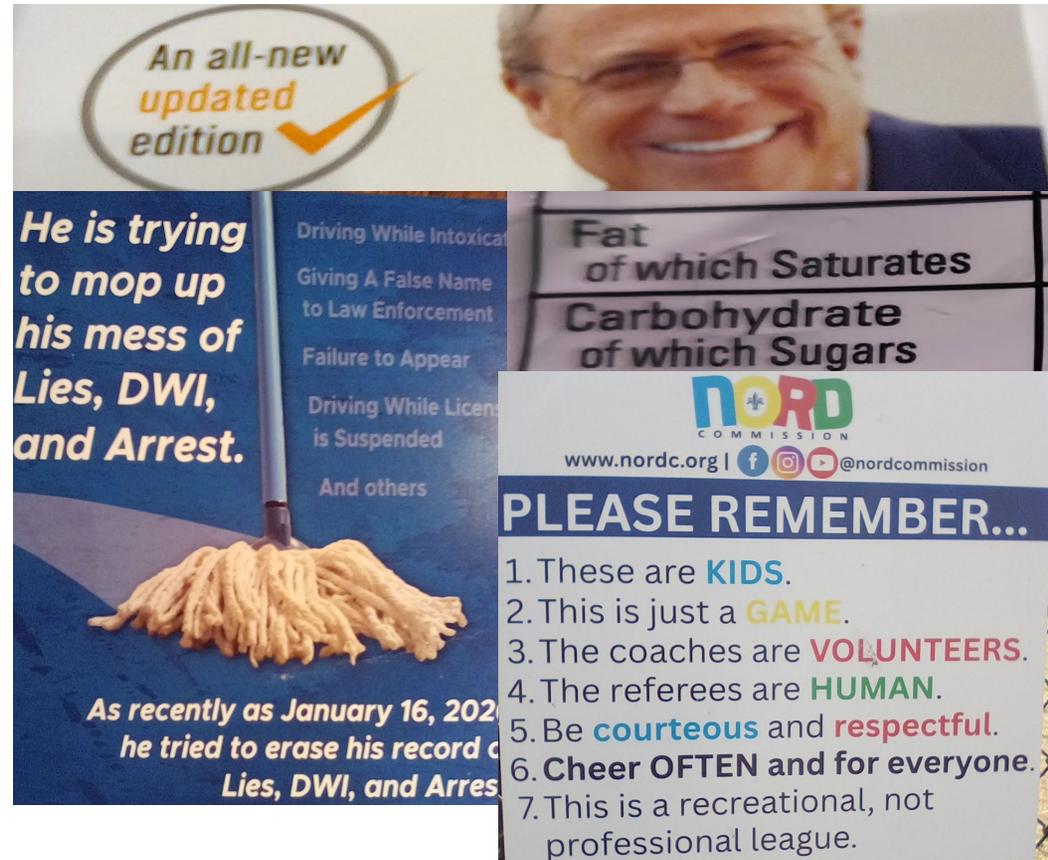

i alwaysknew th@ my questions couldnt b *n would never b* answered; by

### *after negotiations w vance failed*

i was with hrut in the train engine. he had some sort of phone that "worked through oil". i put on a black apron. his train conductor boss put on a video/stream of three "business leaders": evangelical men in a swimming pool, in inner tubes, hands aloft, waiting to be raptured

i laughed so hard... i jus laughed and laughed

### *finance dad socialite mom*

h: she was the go-between for epstein and her dad after the dad had to publicly disavow and distance but he still needed like leads on russian girls/ snow white costume girls or w/e i knew her since we were 6

k: wow i wonder if she went to little st james

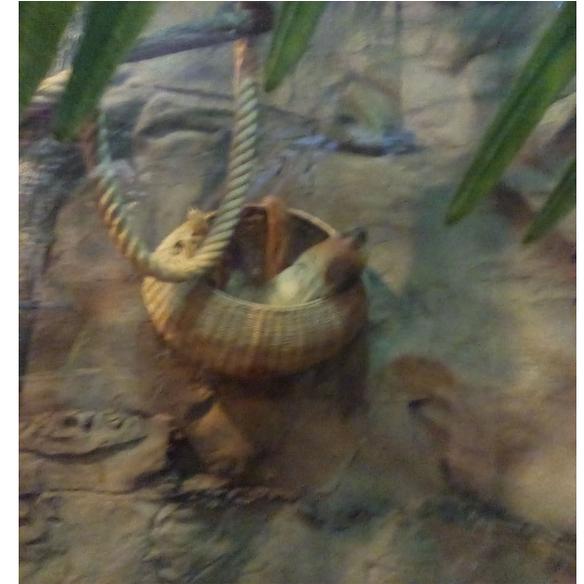

h: he helped her get into grad school at columbia. dad was former jpmorgan CEO jes staley so idk why she needed the help

k: what was alexa like  
i guess shes still alive

h: she was totally fine. easygoing and polite, like better socialized than many of them. never was mean or weird to me or my friends that i ever remember. i think she lived in my friends same building on park avenue  
she works for a drone company now, looks like finance dad socialite mom

### *so sick*

of the metaphor "firing"  
for "neurons" like OMG shut UP  
soSTUPID

### *portend come true*

in Wiggins MS theres a real triple whamy of this stuff

1. the town is tubicore of its like bein on set of a christian film called something like "measure twice" abt a girl with a speech impediment who works at a coffee shop who falls in love w a surly carpenter and they meet while both their mothers are dying of cancer in the same hospital ward;

2. on the main street which, again, imagine ur on the set of this movie, there is a storefront (my friend walked me rite up to it to show me) that says "Video Game and Software Design" however the double-wide full length glass panel storefront frame is set up like a well-lit diorama to show you its CLEARLY full of crates of cats; there are maybe a dozen desks covered in cats and the floor is 100% cat-trash;

3. on this very same street there is an ice cream shop, an **ice cream** shop attempting to cultivate trendy insta ring lite traffic by virtue of the fact that 40% of the shop is a motherfucking sloth enclosure yes--false rock and potted plants and his

*lil circular wicker basket mounted on the wall*

## theories

no that cant be rite - i hear myself arguin in2 the big pale eyes of a 15yrs+ older associate- not inclined 2 argue w him but murmuring it all thesame bc it wasnt Believable even viaproxy i cd see some uh--  
disillusionment, i sed, & tons of resentment of this uh, admittedly  
cringelocale, but not...

believe it: he sed, i was there. im just repeatin his own words

and his words: anew the assertion th@ 'anarchos r in fact nothing more than the street wing of the democratic party'; even via proxy i still rolled my eyes n thought *ok buddy well which 1 of us was out in the street after a fuckin election???* thats on u man... *dramaqueen*

out loud i reply well do u have any- cough - theories? what it means? imo it cd be 1 of 2 things: either our boy is leanin into contemporary ascendant pro-state commie brand on thelogic that anything-less-streamlined henceforth triggers the lck / is Gay; (& frankly--fair enough;) or --and what ur sayin seems 2 imply--its now actually just reg acceleration; in the flat sense of 'i just wanna win'

i watch & wait - feelin my doubts th@-this associate possessthe Sensitivity to these uh Subtleties; & i am correct; theres no real response so i cont'd:

wow-- he said that to u? i just find hard 2 believe  
if 4 no other reason than that these enemies u name  
r big fuckin dorks, toxicdorks; poison lvls of clammy dork;  
(i mean we r talkin like: musk???

u cant b serious)  
imean i would xpect him 2 xperience anaphylaxis ... @minimum

believe it: he sed, i was there. who knows: maybe i shd go to florida and have this conversation face 2 face

hmm was all i cd say - certainthis will jus b unresolved 4 years until i eventually get a direct glimpse of thefacts

## so much

i wanna tell her like bitch you Meditate so much it clearly doesnt help!!!!  
LOL

## more tools

this rly reminds me of a guy i deal with who is a living spooof of the handy man: in the middle of any frenzied school group volunteer day onsite or unrelated activity he will take me aside to exhaustively detail the specs of some mundane tool: 'its actually very handy and if you find yourself finding a use for this--we cld sit down rite now and have a convo, etc etc'

he will pull u 2 the side to explain  
u cld b changing a tire, delivering a baby, anything

he will have a tool expo 4 u

i went down a few half marathons engaging with the tool scenarios thinkin i could run up the clock and it wd surely run its course eventually but he just comes up with more tools so it never really ends

tho, surprisingly, he does have a sense of humor of sorts so i get away w screaming random jibberish over / at him and the comedy treasure and offgassing makes it palatable, in small doses

only other discernable / intermittant convo topics: how to minimize accidents and detour segweys dancing around discontent with a divorce that happened 10 or 20 years ago. All other topics he will bring back to the trifecta (2 above + tools) within 20 sentences or less, guaranteed

## why is he freaking out

my daughter askd n i told her oh

its bc he lived most of his life--like most of a century--ina world inwhich things didnt Just Break At Random: he is not used to it  
like can u imagine

what a shock itd be & how shitty if u were led 2 xpect that things Wont Just Randomly Break & then THIS shit rollsaround????  
its normal 4 us & we r used to it so the emotion is minimul but for him its like some horrible prank; prob feels personal

like u work ur

wholegoddamn life bein told 1 thing & next thing u know in liek a reverse midastouch its like the world s fucking with u everything u touch every goddamnthng Just Breaks like Instantly &here we are it rly upsets them --& that is why

## bronze hemlock

o please th woods r breathin (w not a small amt of alarm)  
stay off thechannel touch grass touch grass immejitly for the lob ob  
o well jesuschrist man

i hear em an commizerating irather wanna  
get that bronze back tho i kno there seems not to b a real way due to the  
fact that its out of range

of my reach i kno despite there r many clueless minions a surplus of them  
and it is not hard to circle them closer however they cannot b directed bc  
they lack the will to b  
anything but wholesome

they will not get my bronze disc back 4 me atanyprice not for me not for  
honor or spite or any other good reason  
lacking the rite kind of associateshelp the tasks outta range & therefore

all i can hope it does is imbue a curse on the place seeing as

Subtropical Storm Karen Discussion Number 3  
NWS National Hurricane Center Miami FL AL112025  
300 PM GMT Fri Oct 10 2025

There has been little change to Karen's structure or intensity since the previous advisory. A curved band of convection is located around the northwestern portion of the cyclone and an 110 UTC ASCAT pass detected peak winds of 38 kt. Therefore, the intensity will remain 40 kt for this advisory, which is also in line with the latest TAFB classification of ST2.5.

The storm is moving northeastward at a slightly faster forward speed of 11 kt. Karen's should turn north-northeast and continue to accelerate ahead of a deep layer trough during the next 12 to 24 hours. The NHC track forecast is near the middle of the tightly clustered guidance and is essentially an update of the previous official forecast. Karen is forecast to move over even cooler waters during the next 12-24 hours and simulated satellite imagery from the global models indicated that the convection is likely to wane later today and tonight. Therefore, some weakening is indicated and the system should become post-tropical in 12 hours, if not sooner. Shortly thereafter, Karen is forecast to open up into a trough and become absorbed by an approaching frontal system.

## portend of the wiggins sloth shop

i was in the bins w my daughter. a worker yell-laughed about how "The world is ending ... NOW!"

It was a giant department store w shop stalls of different minor businesses. I was looking for housewares and stationary but I had an eight-inch-long brown flopping fish up the sleeve of my jacket. I also kept carelessly leaving my jacket places (it happened four times): sprawled across the avocados in their big freestanding crate, even. so I got picked up for shoplifting but it was a misunderstanding.

a nearby child said of the flopping fish, in their tank in the seafood section, "I'm going to have two tonight and one tmrw" and I agonized about letting the fish suffocate in my sleeve.

Iguess Im no sort of apex predator

When the mallcops released me, I asked where the housewares were and he said to go to this other place where there was a cute sloth

## hazmat reasoning

as if 2 assuage my fear of unidirectional time tides he sed: we live in multiple timelines he told every1 and rn im in a future one where im in a hazmat suit cleaning up the decay of the olde worlde in this singlewide trailer of knickknacks mold and family photos w water damage and this is 1 of the routes towards communism ???

if that floats ur boat, i shrug

have at it
